** ARGENTINA [non]. 9455, Tue Nov 25 at 2303 on bandscan I happen to hit start of `Atualidade DX` on the Brasuguese service of RAE ``Argentina ao Mundo`` via WRMI. Arnaldo Slaen compiled the DX tips, all read by YL announcer. I listen to whole thing, and credit them with accuracy, altho there is nothing earth-shaking in the details concerning when and where to hear these countries/stations: Malaysia, Kyrgyzstan, Norway, Tajikistan, Ndarason, Ethiopian exiles via RMI, Liberia, Mali. 2310 into next subject: Saúde Pública. The Xmtr sked shows the RAE PP hour at 23-24 on 9455, and the System D schedule qualifies it as Mon/Tue/Thu/Fri only. Yet the separate grid of RAE relays claims this be daily on 9955 & 7570! Something`s odd at Okee (Glenn Hauser, OK, WOR)

** ARGENTINA. 28476 USB, Nov 26 at 2310, LU7YZ calling QRZ DX. QRZ.com: ``LU7YZ Argentina flag Argentina, Alejandro "Alex" NAZRA, 8309 - Centenario, Neuquen, Argentina`` (Glenn Hauser, OK, WOR)

** ASCENSION. 15490, Nov 25 at 0727, S6/S8 sounds like Horn-of-Africa music, and the OSOB! only signal on band. It`s BBC French to Central Africa at 0700-0729 (Glenn Hauser, OK, WOR)

** BRAZIL. 11756.0, Nov 26 at 2316, S9/+10 of JBM music, presumably R. Voz Missionária as has been reported varying way above 11750; 9665 is always also slightly askew but not by 6 or even 1 kHz (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, UT Fri Nov 21 at 0750, token English new time confirmed on RNA, something about a meeting in Bonn concerning climate, only S3/S5 but // 6180 is JBA. A semihour earlier, no signals on 25m but 6180 was on (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Nov 25 at 0728, S9 music, RNA already on air, much stronger than JBA // 6180. But at 0735 check no signal on 6180. EiBi now shows both from 0700. Is there DST in Brasília? NO (Glenn Hauser, OK, WOR)

** BRAZIL. 11780 & 6180, Nov 26 at 0725, both RNAs are not on yet, despite *0700 per EiBi; should be on by 0750 for token English but zzzz (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 28395 USB, Nov 25 at 2317, PY2DDR working CX7RM in mixture of Spanish, Brasuguese, English. QRZ.com: ``PY2DDR Brazil flag Brazil, DANILO "DANILO" ROSSI, PENÁPOLIS, SP, Brazil``. And logged before: ``CX7RM Uruguay flag Uruguay, Pablo Goldaracena Sommaruga, Pinares Calle Sagitario, Punta del Este 20005, Uruguay`` Several deepSAm phones on 10m, very few beacons (Glenn Hauser, OK, WOR)

** BRAZIL. 28500 USB, Nov 24 at 2316, PU3RDR, CQDX in English. QRZ.com: ``PU3RDR Brazil flag Brazil, Ruan Guilherme "Ruan" Da Rosa, Rua Adolfo Lutz, 50, Novo Hamburgo, RS 93540190, Brazil`` (Glenn Hauser, OK, WOR)

** CHINA. 9415, Nov 25 at 2302, Vietnamese YL with slight echo, S9+10/20. As in Nov 4, *2024* log it`s CRI via Beijing 572 site. And still in B25 info. Short/long path echoes are rarely heard now (Glenn Hauser, OK, WOR)

** CHINA. 13570, Nov 23 at 0357, fluttery S5/S7 signal, per EiBi CRI Xian to Siberia, English 03-05, Mandarin 05-07; per HFCC 500 kW at 354 degrees. Not easily confused with HLL Seoul Meteo Fax at 00-12, unheard. These and R. Martí are doing no favors to the HIFER beacons in the 13550-13570 ISM band, none of which I have even detected in

many months, mostly less than 10 kHz below 13570 (Glenn Hauser, OK, WOR)

** CHINA [non]. 9790, Nov 23 at 0355, American English chat about Olympix, therefore CRI via CUBA, S9+20/30 somewhat undermodulated but sufficient. Something`s not very wrong at RadioCuba (Glenn Hauser, OK, WOR)

** COLOMBIA. 6010.015 approx., Nov 22 at 0717, JBA S5/S6 YL talk in Spanish, presumed LV de tu Conciencia (Glenn Hauser, OK, WOR)

** CUBA. 11700, Nov 23 circa 2300, no signal from Cuban Spy Numbers. I have not heard any for many months, nor seen any other reports of them, but they were logged 24 hours earlier in the WOR iog:

``Gabriel Gómez, Uruguay, CX7BI - CX0001 -- 11700 - 23:00 - 22/11 - Emisora de números (Espía) - Parece ser la emisora cubana Lady HM01. Recuerdo que la he sintonizado también este año 2025, en la frecuencia 9065. Es una lectura de números, con un mensaje digital que suena como un viejo modem de internet de 56k. Español.``

EiBi has deleted all such listings, retaining 66 entries only for Polish and Russian spy numbers. Aoki still has 21 entries, some with more than one timespan, on all these, not including 11700: 9065, 9155, 9330!, 10345, 10715, 10860, 11435, 11462, 11530, 11635, 12180, 13435, 14345, 14375, 16180, 17480, 17540.

{Note that when Spy Numbering was active, that could sometimes appear on RHC frequencies by mistake or vice versa: shared transmitters - gh}

Also keep an ear out for any resumption of Cuban noise jamming on R. Martí frequencies, WRMI 9955, or República via France 9490. About which Alexander Miatlikov, Ukraine, says: ``WRTH Web App shows it at 0100-0300 on Mondays only and that's a very credible source.`` Yet incredible WRMI website claims it`s 0200-0300 UT Sat/Sun/Mon.

Then Richard Langley, New Brunswick, one hour later than WRTH: ``Last night (Sunday night in NA, 24 November UT [Monday]), the transmitter on 9490 kHz signed on at 0159:51 UT with audio beginning at exactly 02:00:00 as monitored here in NB with indoor equipment. Transmitter signed off at about 0358. Reception not as strong as sometimes and getting to only fair by the end of the transmission. Followed by ID and anthem and usual programming -- Richard Langley`` (Glenn Hauser, OK, WOR)

** CUBA, 5025, Nov 20 at 0716, dead air in Spanish from R. Rebelde, S9+25 direct. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 20 at 1523, RHC song with windhowl, S8/9+20, and // clear on 11760. No other frequencies. Not heard RHC on 13780 at any hour; is still in use? EiBi shows it at 1400-1600 & 2130-2400, all Spanish. Not in Aoki, if it ever were (Glenn Hauser, OK, WOR)

** CUBA 11880, Nov 20 at 1955, RHC Kriyol, good and // 15140 with windhowl -- but modulation abruptly cut at 1957.5 to dead air well past 2000, goodbye any English. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 21 at 2006, S9+15/20 of windhowl only into Georgia SDR, instead of English. Something`s always wrong at RHC. Other frequencies not on: 15230, 13780, 11880; and 11760 with RFI instead (Glenn Hauser, OK, WOR)

** CUBA. 6000, Nov 23 at 0346, S9+20/30 of dead air, in English or

Spanish? 9710, Nov 23 at 0353, S9+10 of dead air, ditto. 11760, Nov 23 at 0356, S9+10 of dead air except for windhowl. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, Nov 24 at 0455, S9+20/30 of dead air in English? from RHC where something`s always wrong. Off by next check 0502 (Glenn Hauser, OK, WOR)

** CUBA [and non]. 11760, Nov 24 at 0511, RHC S9+30 of dead air, or JBM, or is that an understation? Only CNR1 also scheduled from Shijiazhuang site – Commies vs Commies! SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15230, Nov 24 at 1550, RHC S5/S7 with good modulation in Spanish for a change. 15140 not on, but at 1553, also 11760 S5/S6 with goodmod. Something`s not always wrong (Glenn Hauser, OK, WOR)

** CUBA. 11880, Nov 24 at 1955, RHC Kriyol, but 1957.5 chop to dead air to prevent any English being heard from 2000. 15140 was also on plus windhowl, now DA too past 2007. Something`s always wrong at RHC. This happens so often that it must be deliberate. The `English` programming page is mostly blank:
https://www.radiohc.cu/en/programming/
and concerns only a few in Spanish. And we still can`t find anything about SW frequencies (Glenn Hauser, OK, WOR)

** CUBA. 11760, Nov 25 at 1635, RHC S9+5 into Ft Lauderdale SDR, contact info in Spanish, repeatedly mentioning cubaonline, as on Facebook and elsewhere. Not on any of the other usual frequencies (Glenn Hauser, OK, WOR)

** CUBA. 11760, Nov 25 at 2002, RHC dead air in English into Ft Lauderdale SDR; only other freq on, much weaker 15140, likewise. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 25 at 2319, this RHC still on, S9/+10 nothing but howling wind. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 26 at 1515, RHC undermodulated music vs howling wind; 15230 S7 of dead air; 11760 undermod music S8/S9, only frequencies found on. Somethings always wrong at RHC. At 2313, 15140 is still on with S9+30 of windhowl, otherwise deadair (Glenn Hauser, OK, WOR)

** CUBA [non]. 11930, 9565, 7355, Nov 21 at 2319, R. Martí still on air this Friday evening, about stupid ballgames. Why are US taxpayers bankrolling this nonsense for Cubans? Bring on more good ole anti-Commie propaganda (Glenn Hauser, OK, WOR)

** CUBA [non]. 6030 // 7355 // 7435, UT Sun Nov 23 at 0347, R. Martí still on in Spanish, music (Glenn Hauser, OK, WOR)

** CUBA [non]. 6030, Nov 24 at 0456, R. Martí still on about presos políticos, VG direct (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, Nov 24 at 1550, Grimesland open carrier, not yet turned on R. Martí, which at 1552 is already modulating on 13570 & 13820, and at 1553 on weaker 11930 (Glenn Hauser, OK, WOR)

** CUBA [non]. 11860, Nov 26 at 2317, R. Martí about what else? Béisbol of course. This GB frequency had been missing for a while. At this hour the others are 11930 and 7355; no 15380, 13820, 13570 or 9565 (Glenn Hauser, OK, WOR)

** CHILE. 28490 USB, Nov 26 at 2303, CE5VKK calling CQ in English. QRZ.com: ``CE5VKK Chile flag Chile, Boris Monares, Avda. 101,

Condominio 1777, Casa 6, Concepción 4030000, Chile`` (Glenn Hauser, OK, WOR)

** EASTER ISLAND. 28495 USB, Nov 26 at 2305, 3G0YR making very quick contacts ``5 to 10 up``occasionally mentioning own call. Wasn`t seeking it but random tuning got this very big deal, QRZ.com: ``3G0YR Easter Island flag Easter Island, DX-pedition to Easter Island, Easter Island "26/11, 3/12" Isla de pascua, Isla de Pascua, Easter Island`` somewhat redundantly, and: ``November 26 - December 3, 2025: 3G0YR DX-pedition to Easter Island - During CQWWCW Contest on November 29-30, 2025, the team will use CE0Y call. The contest entry will be in either Multi-2 or Multi-Multi category.`` More rules and details at:
https://www.qrz.com/db/3G0YR
(Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 15445, Nov 23 at 0358, song, Chinese sounding, S7/S9 one of better signals on band, CRI Russian via Kashgar at 04-06, 500 kW at 308 degrees. Std denunciation (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 20 at 1504, MiniTransAt still on, YL with marine weather in English, heavy accent. Already off at next check 1521, when the OSOB was JBA carrier on 21690, also Issoudun, in Swahili at this hour (Glenn Hauser, OK, WORLD OF RADIO 2322)

** FRANCE. 21660, Nov 22 at 1504, MiniTransAt still on, S7/S9, YL in English, citing wind direxions and pressures only for several locations, 1507 ``see you tomorrow`` and music, turned off a few minutes later (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 23 at 1501, MiniTransAt still airing, YL in English mentions Guadeloupe, but too weak to copy direct. Probably off long before next check at 1526 (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 24 at 1459 OC, 1500 familiar music starts, 1502 usual YL in English with heavy French accent, ``Hello to both of you``- so MiniTransAt La Boulangère still weathering for benefit of a couple stragglers on way to Guadeloupe? 1504 weather info, 1507-1511+ back to music fill, VP S5/S7 direct (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 26 at 1500, MiniTransAt is on with music, VP S5/S7 direct. 1501, YL again says ``Hi to both of you``, ``waiting for you`` and maybe explaining plans for further coverage but just can`t copy exactly what she says accentedly. 1503 weather with usual coordinates, wind speeds and direxions, chopped off air at 1505 amid, 1508 recheck back on, but already into music. Next check 1533 it`s off, probably much earlier. It was the SSOB, and now at 1534 there remain on 13mb only: RFI 21690 JBAC and a slightly stronger JBAC on 21710: only irr. TDF DRM listed, but this was AM (Glenn Hauser, OK, WOR)

** JAPAN [and non]. 28513.5 USB, Nov 21 at 2309, JH1GEX, Yutaka near Tokyo, in contact with CK4AV Montevideo also heard. QRZ.com: ``JH1GEX Japan flag Japan, KOMATSU YUTAKA, 2-308 Fujizakura, Narusawa, Yamanashi 401-0320, Japan`` illustrating 16 ``Recent Events``; and

CX4AV Uruguay flag Uruguay, Jorge (George) Frau, JOSE BATLLE Y ORDONEZ 3441, MONTEVIDEO, Uruguay``.

Another Japanese, 7L4LKK, heard again at 2308 on 28543 USB calling CQDX, working an XE2 (Glenn Hauser, OK, WOR)

** KOREA SOUTH. 6155, Nov 23 at 0752, algo JBA, nothing listed now in Aoki & EiBi, but KBSWR at 0800-1000 in Japanese (Glenn Hauser, OK, WOR)

** MADAGASCAR. 9755, Nov 23 at 0354, S9/+10 mentions `Enfoque en la Familia`, therefore a gospel huxter; MWV as sked to SAm 02-04 (Glenn Hauser, OK, WOR)

** MEXICO. 28276 CW, Nov 26 at 1508, XE1JAL/B beacon is the OSOB, as often heard. K-index is 3.67. Per WGB list: ``28276.0 XE1JAL/B - Xalapa Veracruz MEX EK19mm - #0/1 (25 Nov 2025) Note: ID + grid + 3" carrier`` (Glenn Hauser, OK, WOR)

** NEW CALEDONIA. 28207+ CW, Nov 21 at 2302, Ex5 DE FK5ZDC/B RO---- and dash, beacon. Not in WGB list, yet? Strangely enough, frequency not shown at QRZ.com: ``FK5ZDC New Caledonia flag New Caledonia, ARANC "10m Beacon" Radio Club Beacon, PO Box 3956, Noumea Cedex 98846, New Caledonia --- Hello everyone, ARANC [Assoc. of Radio Amateurs of New Caledonia] thanks you for visiting this page. Our beacon was launched on November 7, 2025. Geographic location: Mount Do at an altitude of 1020 meters (3347 feet). Locator: RG38AF 08AU. Latitude = 021:45'18.84''S. Longitude = 166:00'02.99"E. Equipment: Transceiver: CRT 6900. Mode: A1A. Power: 20 watts. Antenna: 1/4 wave. Patrice FK8HA will be happy to provide you with further details if you wish (see his call sign). Thank you for your visit. For ARANC, Jean Michel FK8ET. To see some informations go to: https://fk8ka.blogspot.com/p/naissance-de-fk5zdc-quelques-semaines.html Shot of transceiver readout shows 28205 - not (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6935 USB, Nov 24 at 2309, pirate music S9+10/20, still at 2320, then SSTV. These say Thunder Chicken Radio: https://www.hfunderground.com/board/index.php/topic,154330.0.html including SSTV images (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Nov 26 at 2324, pirate music S9/+10. Many other reports as unID here: https://www.hfunderground.com/board/index.php/topic,154419.0.html including `O Superman` by Laurie Anderson at 2329 when wish I had been listening (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Nov 24 at 0503, thintonations of Josiah JBA S9/+10 direct, still past 0520 from Station YHWH (Glenn Hauser, OK, WOR)

** OKLAHOMA. 338 MCW kHz, Nov 23 at 0734 UT, TU, NDB `Oillr`, Tulsa, power unknown; usually I hear if anything on 338, RYN, 400 watts at `Ryan` Tucson AZ (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1260, Nov 21 at 0747 UT, ``FM and 1260 AM, KWSH``, song. That`s U2 1/1 kW in Wewoka, address in Shawnee. Seldom heard, barely makes it in daytime. Night pattern has a bunch of notches, one of them almost thisaway: https://radio-locator.com/cgi-bin/pat?call=KWSH&service=AM&h=N (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 1600 kHz, Nov 22 at 0734 UT, ``you are listening to Cush 1600, the last real radio station in Oklahoma`` -- quite a claim for KUSH Cushing! Was briefly audible during KATZ St Louis fade, then back to its ``1600 gospel hits`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 5140 USB, Wed Nov 26 at 1500/1530 random chex, no signals from interagency emergency management net which Don Moore was hearing at 9 am CT Wed Oct 15 while passing thru KS. I`ve kept forgetting to check for it, since no-show Oct 29 at 1408 UT. He wasn`t sure whether it were first/third? Wed only or every Wed. Will try to check Dec 3 = first Wed. An alternate frequency of 7477 was also mentioned, unchecked yet by me (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.1, Nov 26 circa 2050 UT, undermodulated `holiday`/rock music with $tereo pilot, audible more than a mile away, but not solid until I have driven downtown next to the north side of the Garfield County Courthouse, where there is again a sign about ``95.1 OG&E Tree of Lights``, by Sudlow Engineering. I`ve yet to discover exactly what box may be the transmitter, nor which wires the antenna -- could be across the street at a different location such as the decrepit Broadway Tower rooftop antenna farm. Had announcement by Main Street Enid, but no real ID. No doubt will keep going past Xmas, presumably Part 15 lower power. So it`s back like last year, never mind the CP for a different LPFM in Enid.

This encourages me to check out the status of the unrelated 95.1, KOKJ-LP which I have never heard and presumably has yet to come on air at all. Per FCC LMS: facility ID is 788786 for further reference. Specified not on air, CP expires 3/19/27. radio.media.ltd.1@gmail.com (580) 544-0392. Coverage map still centred on 900 N Grand, Enid, a block S of Chestnut, southward lobe toward most of Enid (Glenn Hauser, Enid, WOR)

** ROMANIA [and non]. 17790, Nov 20 at 1523, mixture of music from WRMI and talk from Romania, as this collision continues; at least Vatican has escaped a 3-way by moving to 17800 now a JBA carrier. Meanwhile, open frequencies all over the band (Glenn Hauser, OK, WOR)

** ROMANIA. 9720, Nov 23 at 0354, folk music from RRI Spanish via Galbeni for Central America, S9+40/50 one of the SSOB (Glenn Hauser, OK, WOR)

** SPAIN. 17755, 17715, 12030, Wed Nov 26 at 2300, all REE frequencies JBA carriers, and 9690 still silent, when weekly token English hour is supposed to appear with two new hosts, the previous pair Amy Egan and Marilyn Quintana having left. No way to tell by listening what happened, but Alan Roe said the hour-by-hour program preview sked showed something in Spanish, presumably `La Sala` for ``hoy`` at 00:00 local time:
https://www.rtve.es/play/guia-rne/radioexterior/
When there is one, eventually here:
https://www.rtve.es/play/audios/english-language-broadcast/
(Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960, Nov 21 at 2259 and still 2311, no signal direct from VOT. Something non-English weak on accidentalternate 9610: that would be CNR8 Mongolian via Beijing site. At 2331 into UTwente, only Chinese S9+5/15 on 5960.000: that would be PBS Xinjiang, Urumqi; JBA algo S7 on 9610. Standard denunciation for E Turkistan, erroneous Emirler for Turkey (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.003+, Nov 22 at 2319, VOT English not off the air, S9+40 into UTwente; however, fails to provide extraneous German at next check 0030 Nov 23, only Chinese and close to on-frequency (Glenn Hauser, OK, WOR)

** TURKEY. 9660.008, Sun Nov 23 at 1747, VOT English, S9+5/25 into UTwente starting `Letterbox`, Cemre anticipates Poland, Canada, Russia, India. 1) Jamahar Almeida, Goa, India, tnx for QSL, has visited Istanbul, wants another QSL, will transit Istanbul again on way to visit North Macedonia. Cemre about rules for number of minarets on mosques: maximum 6, usually less. 1751 transmission break less than a minute. 2) P--?, Vilnius, Lithuania, with QR code. 3) Lee? Ying?, Fujian, East Asia, Chinese at 1230 on 17775. 4) Mr Francis Mohler?, Ireland, email in ALL CAPS shows enthusiasm. 5) Pakajarjee?, is World Immunization Day 10 November celebrated in Turkey? No answer but all children are mandatorily immunized free. 6) Mr Liam? Spencer,

Berthoud?, Colorado, 16-year-old. 1803-1804 another transmission break. 7) Mr Jaszek? --?, Poland, report of 9980 at 2048 - must have meant 5980. 8) Mr Daryl?, ? Lamar?, Missouri. Fading down, making copy more difficult. 9) Mr Andres? --, Ontario, Canada. At 1812 fading way down to S6/S8, really can`t copy anything more. 1817 detect the theme playing for closing (Glenn Hauser, OK, WOR)

** TURKEY. 5960.009-, Nov 23 at 2304, VOT English not off the air, S9+30/40 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Nov 24 at 2258, VOT IS, not off the air, but S9+10/20 direct is insuff vs noise level (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.018+, Nov 25 at 2257, VOT not off the air, IS & ID in English, S9+10 direct but insuff in noise level. At 2353 into UTwente when measured, S9+30/40 of song; 2354 s/off as if it`s 1330 on 13635, something`s always awry at Ankara. 2355 IS. 2356 restart IS with extraneous German IDs. Nov 26 at 0000 timesig and s/on extraneous German, same news and other sounders as in English - and all langs? Still Germaning past 0030. By 0040 mostly songs. 0053 finally cut off, opening 5960 for Chinese, which sounds plenty strong, but was totally blocked while TRT remained. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002+, Nov 26 at 2259, VOT IS at S9/+10 direct, 2300 sign-on English as if it`s 13635 at 1330, awry at Ankara. Would be listenable if not for the Enid noise level. At 2334 into UTwente when measured, S9+20/35 in music, 2336 `Sports Panorama`; 2350 multi-lingual ID filler reel, 2352 s/off as if 13635, awry at Ankara, 2353 IS for less than a minute to off* (Glenn Hauser, OK, WOR)

** U K O G B A N I. 5450 USB, Nov 23 at 0344 VOLMET in English, but not all English units, S9/+10. EiBi shows RAF from site ic which means ``one of: Inskip (Lancashire) 53N50-02W50 / St.Eval (Cornwall) 50N29-05W00 / Crimond (Aberdeenshire) 57N37-01W53`` -- do they alternate or deliberately obfuscate? (Glenn Hauser, OK, WOR)

** UKOGBANI. 17570-17575-17580, Nov 26 at 1536, DRM noise at S5 direct. BBCWS English per Aoki & EiBi, E1C238 this hour only from Woofferton to S Asia (Glenn Hauser, OK, WOR)

** U K O G B A N I. 28462 USB, Nov 21 at 1615, G0FWX in central England working US stations. QRZ.com: ``G0FWX England flag England, Gary Clarke, Bromsgrove, Worcestershire, England``

28510 USB, Nov 21 at 1616, MW0YVK Eddy working KF0RRV and a VA3. Eddy went thru several cambios without mentioning his call; finally heard some other station utter it fonetikaly. QRZ.com: ``MW0YVK Wales flag Wales, Eddy Howells, 72 hollywell cresent {sic}, ABERGAVENNY MONMOUTHSHIRE NP7 5LG, Wales``

Meanwhile, not a trace of the Dane on 25800, broadcaster inferior to hams (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, Nov 25 at 0729, US military crypto exercise, with reverb, alfanumerix repeated between ``stand by``, then into full message which I don`t copy but check //: much weaker on 15016 USB, and strong S9+35 on 4724 USB, until 0732 finishing with ``this is coat tail, out`` (Glenn Hauser, OK, WOR)

** U S A [non]. 9765, Sat Nov 22 at 2046, JBA S6/S7 between noise bursts into Nailsea UK remote, Global Talk America, in Hausa, improving slightly by 2058, mentioned Hausa and `Amurka`. Had tried numerous other remotes in Europe, Africa but no significant signal from listed Woofferton site for this new service, in HFCC as Mon-Sat

only at 2030-2100. So Encompass is handling it. Which KiwiSDR remote(s) inside UKOGBANI are close enough to WOF for easy groundwave reception?

GTA started one week ago Nov 15, also with morning airing at 0500-0530 on 6170 via Ascension, where Gianni Serra, Italy first reported it to the WOR iog on Nov 21. Just in case, I check 6170 at 0500 Nov 23, but no signal since it`s UT Sunday.

Has led to much discussion in WOR iog. Summarizing: based in Washington DC, seems well-developed already, suspected initiated by ex-VOA Hausa service staffers; already being relayed by various FM stations in Nigeria, elsewhere. So are there going to be more successor language services replacing VOA crushed by Trump?

I retyped portions of the Instagram page
https://www.instagram.com/gtahausa/

``Kainuwa Dashe Allah

However, VOA Hausa still exists in this form:
https://www.voahausa.com/
(Glenn Hauser, OK, WOR)

** U S A [non]. 6170, Mon Nov 24 at 0500 past 0520, NO signal direct from Global Talk America in Hausa via ASCENSION, as expected to resume after a UT Sunday break. Make another check at 2030-2100 on 9765 via Woofferton (Glenn Hauser, OK, WOR)

** U S A [non]. 6170.003-, Tue Nov 25 at *0459.5, carrier on, S8/9+10 into UTwente, and starts talking mentioning Hausa. It`s Global Talk America, heard no IS or identification music; there was *no* signal last night UT Mon at this time, so is that its day off rather than Sunday? 0500-0530 6170 Ascension, and 2030-2100 9765 Woofferton just

happen to be among last year`s B24 schedule for VOA Hausa as in WRTH 2025 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2321 monitoring: confirmed UT Thursday November 20 at 0130 on WRMI 5010, S9+20/30 into Bonaire SDR.

Also confirmed Thursday November 20 at 1730 on SW Gold Radio, Germany, 6160.001–, S9 into UTwente but heavy ACI from both sides; and 3975.001+, S9 in the clear.

WORLD OF RADIO 2322 contents: Afghanistan, Alaska, Bonaire, Canada, China, Cuba and non, East Turkistan, Egypt, France, Germany and non, Hungary non, Israel, Japan, Kurdistan non, Kuwait, México, Myanmar and non, North America, Philippines, Russia and non, Slovakia and non, Spain, Taiwan, (Tajikistan), (Thailand), (Turkey), UAE, UK, USA, Vanuatu; propagation outlook – (countries mentioned along with others not in order)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: confirmed Friday November 21 at 2130 on IRRS SW via AM Italia, 1322.997, S9+12 into nearby Noale SDR, and not on 918 or 207, much better than into UTwente across Europe.

Also confirmed Friday November 21 at 2300 on WRMI 9955, S9+20/30 direct.

Also confirmed Friday November 21 at 2331 on SW Gold Radio, Germany, 3975.003-, S8/9 into UTwente.

Not confirmed UT Saturday November 22 at 0400 on WTWW 5085, rather re-playing last week`s 2321 due to some kind of mixup. Notified them ASAP, and might have played 2322 at 0430, but could not and eventually turned off. Then George informs me they will get 2322 on tonight, i.e. 24 hours later than usual, UT Sunday at 0400.

Confirmed Saturday November 22 at 1530 on SW Gold Radio, Germany, 3975.002+ and 6160.001+ both S9 into UTwente. But heavy ACI from 6165, where both CNR6 from Beijing site, and CRI via Urumqi are listed.

Also confirmed Saturday November 22 at 1630 on WRMI 9955, S9+20 into Knoxville SDR.

Also confirmed Saturday November 22 at 1700 on WRN via WRMI, 9395, S9+5/10 into Knoxville SDR, and JBA on // 7730. Next:

1830 UT Saturday SW Radio, Germany 3975;

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: confirmed Saturday November 22 at 1830 on SW Radio Gold, Germany, 3975.002, S7/S9 into UTwente. 6160 remains off, occupied by the ChiCom.

Also confirmed Saturday November 22 at 2030 on WRN via WRMI 9395, S7/9+5 into Georgia SDR. But not on WRMI webcast only, rather music.

Also confirmed Saturday November 22 at 2055 about 26 minutes into so started circa 2029 on WA0RCR, 1860 AM, MO, VP S5 into N9AZZ IL remote.

Also confirmed Saturday November 22 at 2100 on WRN Europe stream.

Also confirmed Saturday November 22 at 2200 on WRMI 9395, S9+30 into

Georgia SDR.

Also confirmed Saturday November 22 at 2230 on WRMIs 17790 S7/9 and 15770 S9+25 both direct.

Not confirmed UT Sun Nov 23 at 0400 on WTWW 5085, supposed to make-good for wrong episode last night; stayed on until 0437* chop with Truth2Ponder instead. Maybe tomorrow night UT Monday??

Confirmed UT Sunday November 23 until 0451.5 on WA0RCR, 1860 AM, MO, good S9+5 into N9AZZ remote, but VP direct; so must have started about 0423.

Confirmed Sunday November 23 at 0730 on WRN via WRMIs direct: 5850 S9+20/30, 7570 S9, 7780 S8/S9, 7730 JBA, and no signal on 15770 probably on but not propagating. At 0800, 5850, 7570 & 7780 split into three different programs. 5850 transition again very rough, at first, ``Welcome to Encore``, then cut to ``The Bible Answers``.

``World of Radio at 1030 on 9510 this Sunday (regularly heard since the beginning of the B25 season) with edition 2322. But IRRS schedule not updated, French is still listed at this time: https://www.nexus.org/member-services/radio-and-tv/schedules/sunday-program-schedule/ Regards, Jean-Michel Aubier, France``

Also confirmed Sunday November 23 at 1137 when I happen to awaken on WRN via WRMIs at 1130 on 7570 S9+15, and 7780 S8/S9. And not on any others on air and audible, 9395, 7730, 5850. Per skedgrid, 7570 & 7780 are the only two frequencies with WRN at this hour, System E. Yet the System E sked itself claims at 11-12, 9395 is the only frequency! Something`s odd at Okeechobee. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0400 UT Monday WTWW 5085 [this week, Maybe!];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: confirmed Sunday November 23 at 2000 on IRRS SW via AM Italia, 1322.993, S7/S8 into UTwente.

Also confirmed Sunday November 23 at 2100 on WRN Europe stream.

Also confirmed Sunday November 23 at 2230 on SW Radio Gold, Germany, 3975, good S9+10 into recommended Barney`s SDR in Bedford, England: https://shortwaveradio.de/en/listen_live

Also confirmed Sunday November 23 at 2337 the 2330 on WRMI 9455, VG

direct.

Also confirmed UT Monday November 24 at 0003 the 0000 on WRMI 9395, S9+20/25 into Georgia SDR.

Also confirmed UT Monday November 24 at 0049 the 0030 on WRMI 7780, S8/9 direct.

Also confirmed UT Monday November 24 at 0049 on WRMI 9455, S9+20/30 direct.

Also confirmed UT Monday November 24 at 0400 on WTWW 5085, VG direct, this week instead of 48 hours earlier Nov 22 when the previous week`s edition aired by error. Followed by gospel music until 0435*

Also confirmed UT Monday November 24 from 0401.8 on Area 51 webcast only after WBCQ 5130 signed off; following JL running slightly over until he gotta go. Unlike no-show last week. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: confirmed Monday November 24 at 2030 on SW Radio Gold, Germany, 3975, S9 into recommended Barney`s SDR at Bedford UK.
https://shortwaveradio.de/en/listen_live

Also confirmed UT Tuesday November 25 at 0330 on WRMI 7780, S9 direct; at 0345 into S Texas SDR, S7/S9 but much louder.

Also confirmed Tuesday November 25 at 1405 the 1400 on WRMI 9955, S9+5/15 direct.

Also confirmed Tuesday November 25 at 1525 the 1500 on WRMI 9955, JBA direct. Next:

0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.

``Laser Gold problem --- Hi Glenn, Just to inform you, Laser Gold has a scheduling problem at the moment so some shows including yours have temporarily moved to LG2. Laser Gold 2 is the new name for Laser Pirate Radio. Here is the latest announcement posted on our social media:

Dear listeners apologies this past weekend for some scheduling issues on LG2 meaning some shows went out in the wrong order. This will be programmed properly going forward.

The playout issue with some recorded shows on Laser Gold is being resolved but a software fix will be over a few weeks away. This means that LG2 will continue to be the back up for some of our programmes until further notice.

All live shows from Laser Hot Hits will be simulcast as normal on Laser Gold and any changes will be published in advance so you can select which service you want to listen to.

Laser Gold and LG2 will continue. I will keep you updated in due course. Kind Regards, Gary
https://laserinternational.bravesites.com/lg2
Gary Drew Worldwide ?`` Nov 25 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, from the desk of Richard's listening Post, Radio: JRC NRD-535 HF, 1995, (30 years of service), Antenna: random long wires in the trees. WRMI, World of Radio (#2322):
9455 kHz, 2330-2359. S7 signal (45433), November 23 UTC [Sun]
9395 kHz, 0000-0029, S5 signal heard, November 24 UTC [Mon]
9395 kHz, 0030-0059, qsb fading, {?? this time is on UT Thu --- gh}
9395 kHz, 0130-0159, S7 signal the best (45433), November 26 UTC [Wed](Lemke, Richard -AB) Happy Thanksgiving Day USA, November 26, 2025 7:15 am 73's, Richard``

Confirmed Tuesday November 25 at 2100 on IRRS SW via AM Italia, 1322.997, S9+10/15 into nearby Noale SDR.

Also confirmed UT Wednesday November 26 at 0030 on SW Radio Gold, Germany, 3975.002+, S7/S9 into UTwente.

Also confirmed UT Wednesday November 26 at 0130 on WRMI 9395, S9+15/20 into N9AZZ IL SDR.

Also confirmed Wednesday November 26 at 2030 on Shortwave Radio Gold, Germany, 3975.001, JBA into UTwente but better S9 but still poor into Barney`s SDR in Bedford, UKOGBANI. Immediately preceded by ID for 6160, which presumably is still not on air at this hour.

Also confirmed Wednesday November 26 at 2200 on WBCQ 7490 -54 Hz = 7489.946, S7/S9 into Maryland SDR. Still immediately following TOMBS chopped off, ID, rather than long-gone `Pirate joe Extravaganzo` as still on the sked at 2100. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 21 at 2320, no signal from the WBCQ SuperStition. Propagation OK, must be off. What`s wrong? Still off at 0729 & 1607 Nov 22 check (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Nov 22 at 0053 into Maryland SDR: 9330 off; 7490 -50 Hz = 7489.950 with FKB; 6160 -75 Hz = 6159.925, S5/S6 music. 5130 off until *0055 IS & ID loop -76 Hz = 5129.924 S7/S9. But at 0059 admits that a repeat follows, originally aired Sept. 26, 2025; never mind (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 23 at 0351, WBCQ SuperStition is still silent. Absence first noticed Nov 21 at 2320, so that`s at least 28.5 hours. What`s wrong? Still missing Nov 23 at 1721 = 42 hours (Glenn Hauser, OK, WOR)

** U S A. 7489.93 approx., UT Monday Nov 24 at 0504, WBCQ still on, sounds like `Amos & Andy` which was a classic radio series performed by someone else than the originals in movies. On radio one cannot see their black-facing. Not // R. Angela 6159.93, S9+10/20 with music, which BTW is never strong enough here for easy listening. Is this on the WBCQ program schedule? Of course not! But last week at same time, `A&A` was playing on Area 51 webcast (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 24 at 0508 and 1555 chex, WLCR on WBCQ SuperStition is still OFF, the latter 64.5 hours after first noted missing. What`s wrong? Website linked from WOR Hitlist now has huge audio archive of episodes, 55 or 60 minutes each, so who needs SW? And this latest reply at: https://www.worldslastchance.com/wlc-radio-broadcast-schedule.html

``No WLC on 31 meters --- Written by: Michael Whitco November 24, 2025 - There have been no WLC broadcasts heard 9330 KHz (31 meters) AM mode, in northern WV since Nov 21, 2025. Miles Robey and Dave Wright have been very educational for me, and I miss hearing their cheerful dialogue. I use an Icom IC-718 (my amateur radio rig) and a G5RV antenna, which both have been performing perfectly. I have even checked the equipment's functioning on the 40 meter band, with good results. Has anyone else noticed this?`` To which there is no reply or explanation (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 24 at 2306, WLCR on the WBCQ SuperStition still AWOL; hardly miss it. Also absent at 1720 Nov 25 = 90 hours after first noted off. Of course I can`t be positive it never came on in the meantime. Hey, Cuba spy numbers: here`s your chance! (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 26 at 0050, WLCR on WBCQ still missing, unless it`s the source of huge motorboating noise constantly covering 9310 to 9331 on Georgia waterfall, S8/9+5. Now 97.5 hours has been mute. Motorboat finally stops at 0112*. Another check Nov 26 at 1512, still no 9330, almost 112 hours. At 2320 still off, completing 5 x 24 = 120 hours of respite. Rechecking website, https://www.worldslastchance.com/wlc-radio-broadcast-schedule.html now there is a reply to the ``no signal`` inquiry last time:

``Transmitter Down --- Written by: Lee Houser November 24, 2025 --- Dearest Michael, We're thrilled to hear that you have been blessed by the broadcast. Sadly, the transmitter is down right now. Yahuwah willing, we'll have everything up and running again soon. In the Father's Love, lee (wlc team)``

And banner atop says ``we`re almost ready to launch our new website!`` So the current deity-approved spelling is: YAHUWAH --- or is it? Elsewhere on the same homepage: YAHUSHUA --- geez, upmake your mind. Meanwhile all those worshiping merely``Yahweh`` like WMLK, or ``YHWH` are wasting their time! A deity can hardly bother with would-be worshipers who can`t even get His Name right (Glenn Hauser, OK, WOR)

** U S A. 7570, UT Mon Nov 24 at 0507, WRMI classic rock, sounds OK at center frequency but accompanied by distorted modulation peaks about 4.5 kHz plus/minus. Sked at 04-06 daily is System C with WRMI Legends (Glenn Hauser, OK, WOR)

** U S A. 15770 // 17790, Wed Nov 26 at 2258 ``WRMI Legends``

mentioned and Icom America ad. Totally contrary to skedgrid which atop shows R. Prague International at 2230-2300 on both from System H, and otherstuff below. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** U S A. 5920, Nov 24 at 0726, S9+25 of dead air from WTWW -- or rather just a very long pause in TOMBS, soon resuming. Likewise, 5935 WWCR airs VLPs as DGS puffs on his cigar; really should have included SFX originally, but video was sufficient to show it still running (Glenn Hauser, OK, WOR)

** U S A. 15150, Nov 24 at 2259, S9+20 open carrier, 2300 IS/theme music and WMLK s/on giving FCC authorized times as 04-09 & 17-22 but but No frequencies, and ``50,000 watts`` power, contact address and into program. Clearly long-outdated announcement and mixed up their sked, or a deliberate change? 15150 has been their morning, not evening frequency. By now would have been moving from 17525 to 9275, neither on now. 15150 still on at 2357. By 0202 & 0254 Nov 25, 15150 a JBA carrier and 9275 still off. Of course if they are really targetting Europe instead of NAm they should be on 17 MHz in our mornings, 15 MHz afternoons (Glenn Hauser, OK, WOR)

** U S A. 9275, Nov 25 at 2258, S9+10/20 open carrier, 2300 s/on of WMLK, exactly same out-of-date recording played at same time yesterday on 15150 instead with wrong times and power. 17525 is also off. Something`s botched at Bethel. Nov 26 at 2318 all three WMLK frequencies are OFF (Glenn Hauser, OK, WOR)

** U S A. 660 kHz, Nov 22 at 0700 UT, Navajo chanting & drumming dominating, KTNN AZ certainly not nulling toward NYC; earlier at 0504 also reported by Kevin Redding, Crump TN (Glenn Hauser, OK, WOR)

** U S A. 670, Nov 22 at 0701 UT, music and ``you are listening to The Good Shepherd, on Infinity Sports Network`` -- what, a gospel huxter? No, that`s the name of a sportstalk program, why? WSCR Chicago, of course (Glenn Hauser, OK, WOR)

** U S A. 670, Sun Nov 23 at 0741 UT, WSCR Chicago with talkhost mentioning that Infinity Sports Radio was CBS Sports, and from 2026 will be on Westwood One. And he`s ``The Good Shepherd[?]`` again. Wikipedia shows ``The Good Shepard (David Shepard) Saturdays, Sundays 2 a.m.`` (Glenn Hauser, OK, WOR)

** U S A. 1030 kHz, November 23 at 0728 UT, Spanish ``y 101.5 FM``, Mexmx; at 0738, ``Ambiente 10-30``. Ajá, that makes it WGSF Memphis TN, as in NRC AM Log ``Radio Ambiente``, U12 50000/1000 watts and CH 10000. U12 means ND daytime and Critical Hours, direxional at night. https://radio-locator.com/cgi-bin/pat?call=WGSF&service=AM&h=N shows broadlobes from NW to SW to SE, notch to NE protecting WBZ from site clearly in TN. NRC AM Log does not show any FM for it, nor radio-locator, while WTFDA FM Database shows *two* 101.5 translators in Memphis at exactly same location, but neither for WGSF! K268DA for WGUE 1180 in Spanish, and W268DD for WREC 600. Seems we have discovered another translator jumble. Just in case, I search the entire FM list for any Ambiente on 101.5: none. Own website is homepage only https://ambiente1030.com/ not showing any FM, but ``Ambiente 1030 Radio Nos estamos renovando, regresa pronto`` Anyhow, this has been dominating 1030 rather than other SS such as KCTA or KCWJ or XEQR; at least on my E/W longwire rather than N/S (Glenn Hauser, OK, WOR)

** U S A. Following from IRCA DX Monitor ``Nov 29`` correlate with my recent log:

``1030 WGSF TN, Memphis – 11/16 1834 {EST = 2334 UT} noted w/”Ambiente 1030 y 101.5 FM” slogan ID in Spanish into Regional Mexican format. A

good signal was heard under KCTA. (JB-TX) Jim Boyd, Houston TX wildthangjim@yahoo.com Sangean PR-D5, barefoot on batteries.

(In Jim's log, WGSF is apparently on day power; the 101.5 relay in Memphis just switched to carrying WGSF from WGUE 1180 Turrell AR– eb) {ed. Eric Bueneman}

+ {also WGSF} 11/18 0634 {EST = 1134 UT} noted w/Regional Mexican format, confirmed via live Web stream. New in the logbook. (GH-IL) Greg Harris (WB9MII), Park Forest IL wdx9khy@yahoo.com ICOM IC-R75, Sangean DT200X, Sony SRF-59 Ultralights, Tecsun PL-330 with internal loop antennas, Terk Advantage loop`` (Glenn Hauser, OK, WOR)

** U S A. 1090, Nov 22 at 0704 UT, CBS News closing into ads, surely not KAAY AR, but losing out to its music before I can hear an ID if any. NRC AM Log shows the only C on 1090 is WCRA Effingham IL, 1 kW daytimer, but App for U1 840/11 watts (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, Nov 24 at 0517 UT, weather from Kansas and ``KLEY Wellington, Thunder Country``, completely unashamed always running day power 250 watts instead of legal night power ONE WATT. If I ever wanted to hear the stupid sportstalk from KWKH Shreveport, I would be upset; clearly KWKH itself does not care either, allowing this to go on for many months (Glenn Hauser, OK, WOR)

** URUGUAY. 28457 USB, Nov 24 at 2314, CX2UIC calling CQ10 in English with fonetix, but also abbreviated? as X2UI. What? No CX2UIC in QRZ.com but *maybe* ``CX2UI Uruguay flag Uruguay, FRANCISCO "FRAN" PEREIRA PIREZ, Colman 1575, Ciudad de Treinta y Tres 33000, Uruguay`` Quite a few other phone DeepSAms, Argentina, Chile, some pileups because they can`t hear each other, but hardly any beacons (Glenn Hauser, OK, WOR)

** URUGUAY. See JAPAN [and non]

** VANUATU. 7260, Nov 20 at 0718, JBA carrier again presumed R. Vanuatu. Ron Howard confirms:

``7260, Radio Vanuatu, 0630 to past 0717+ UT, Nov 20, heard via Kiwi SDR remote at Palmerston North, NZ; 0630-0648, public service messages that started and ended with the usual indigenous drums; brief intro in Bislama; providing info about the administration of various probates given in English and French; 0648, musical ID mentioning "Radio Vanuatu . . Kingdom of Tonga . . Solomon Islands . . Voice of Papua New Guinea . . Radio Vanuatu, Vois Blong Yumi"; as Glenn has reported, at 0658 there was no switch to 5040, instead stayed on 7260 after 0658+; 0659, in English with commercial announcement; 0700-0714, news/sports/weather in Bislama; 0717, Céline Dion - "To Love You More."

My remote audio of portion of the probates - https://app.box.com/s/rrrwei6j8ovsrp96dtmmc7tsfg73zwxg

My remote audio of musical ID - https://app.box.com/s/b05i7s91npydqrb7a2s7pzrlix7wr0px Ron, Monterey, Calif.``– (Glenn Hauser, OK, WORLD OF RADIO 2322)

** VATICAN [and non?]. 9710, Nov 24 at 0509, RCC stuff in Russian as sked from VR daily 0500-0520 plus 0520-0540 Ukrainian; but with JBA CCI underneath; nothing else listed unless RHC is quite possibly running late, but should be much stronger, as 11760 is also on VG.

An earlier report from Illinois: ``RHC clashing with CRI on 9710 0150 UTC Cuba in English and China in Spanish on the 24th - ron trotto-wdx4kwi`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 610 kHz, November 21 at 0733 UT, Mexmx dominating instead of Omaha, but that`s recovered a few minutes later. NRC AM Log shows two low-powers in Georgia, and one in Oregon, all very unlikely. IRCA Mexican Log has five stations with various provisos, in Coahuila, Michoacán, Sinaloa, Yucatán, Zacatecas. WRTH 2025 has four Cubans, three Rebeldes and a Reloj (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 670 kHz, November 21 at 0734 UT, WSCR vs an understation in Spanish, unusual, likely among the dozen synchros of R. Rebelde, Cuba, from 1 to 50 kW. No Mexicans or Americans (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 780, Nov 21 at 0740 UT, sports talk in English QRMing WBBM during `StarDate`. Only 780 in NRC AM Log with at least a partial sports format is KSPI Stillwater OK, daytimer which has been known to overnight, but mainly rock (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.58 kHz, Nov 21 at 0738 UT, JBA carrier hetting 810.0 WHB. Often heard here on slightly variable frequencies. Anyone else? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1220 kHz, Nov 20 at 0721 UT, motorboating sound only from some out-of-order station (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1470.02, Nov 23 at 0723 UT, LAH on plus side as often noted in bandscans. Nothing fits in mwoffsets list (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1550.31, Nov 23 at 0722 UT, JBA carrier hetting 1550.0 stations. I continue to wonder if it`s XEREL Morelia, a signal last year on the minus side of 1550, but not 100% confirmed (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1569.81, Nov 22 at 0736 UT, JBA carrier hetting 1570.0 stations (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Nov 23 at 0342, JBA carrier again direct. Gotta be something, ute, unknown broadcaster or Enidic (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6955v, Nov 24 at 0458, carrier sweeping up and down tuned in USB mode, sounds like ``wow, wow, wow...`` Then a separate one doing the same. Pirate play? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7625-7680 approx., Nov 22 at 0723, multi-carrier, multi-tones beating against each other, very wide bandwidth but not blocking any broadcasters, S9+5 peak around 7640. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9700, Nov 25 at 0737, S6/S8 of dead air. Nothing listed now after Ouargla, Algeria until 0700 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15205 USB, Nov 26 at 1513, 2-way in colloquial Spanish with engine noise, and another weaker reply. Blatant intrusion into SWBC band. Still/again there at 2314 check. Maybe they picked 15205 because EiBi has zero broadcasters on it; but Aoki has two hours a week, Saturdays 12-14 of Radio 60! in English on 15205 via Tashkent -- what`s that??? (Glenn Hauser, OK, WOR){not 15025 typo originally}
